

## REVEALING SUSPICIOUS ACTIVITY

The International Standard for Testing and Investigation (ISTI) requires signatories to “ensure they are able to obtain, assess and process anti-doping intelligence from all available sources” (ISTI section 11.1). As a result of this obligation, World Lacrosse has partnered with the International Testing Agency and utilizes [REVEAL](#), the ITA’s doping reporting platform.

Any individual within the World Lacrosse family who wishes to report any doping violation or any additional anti-doping intelligence can do so anonymously on the [REVEAL](#) platform.
